

# Charger Volume Production Fixture V1.1

HT45F5Q-xC, HT45F5Q-x, HT45R5Q-x

## Characteristics

- Used together with charger volume production fixture hardware
- Replaces traditional calibration fixtures; now completed in 5 seconds
- Parameters stored in MCU EEPROM, eliminating external components
- One-click calibration, saving manpower
- Stores 10 charger parameter groups, easier to change production models

## Applications

Charger volume production fixture

## Connection
