

Sub-1GHz GFSK Transceiver Module

BM3603-0x-1

Characteristics

- 1.8V ~ 3.6V wide operating voltage range, low standby current consumption
- Integrated OOK&GFSK transceiver functions
- Maximum output power up to +20dBm
- High RX sensitivity: -120dBm(Typ.)@433MHz, 2kbps
- Supports 3-wire/4-wire SPI functions for flexible applications

Applications

Smart appliances, wireless meter reading systems, security alarms, etc.
