

Digital Weighing Sensor

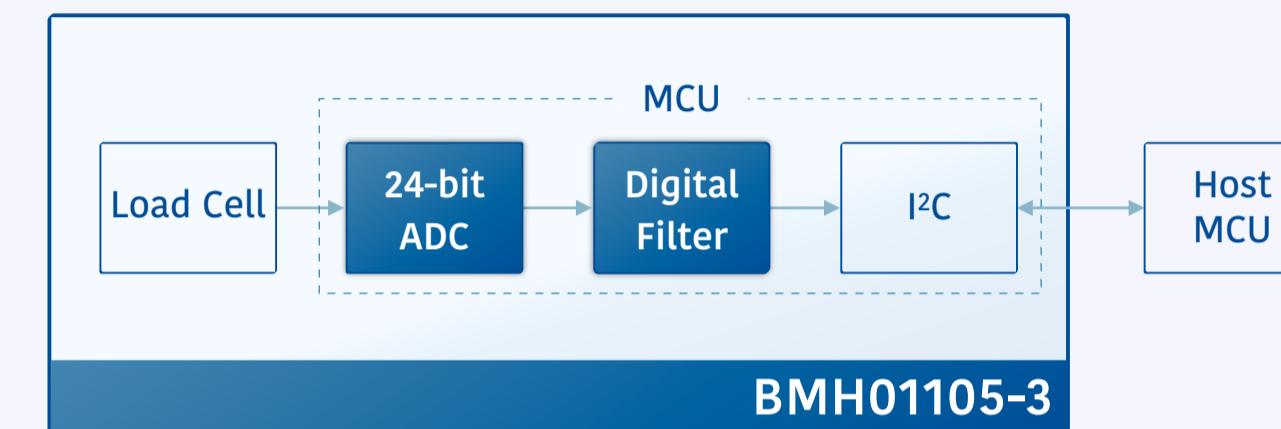

BMH01105-3

Characteristics

- Direct output of weight data, selectable output resolution: 1g/0.1g
- Standby upper/lower alert threshold
- UART serial port for program update
- Main control MCU: BH66F5355
- BH66F5355 integrates a 24-bit ADC and two OPAs for accurate measurements
- BH66F5355/24QFN (3×3mm²) is highly integrated and suitable for small size products

Block Diagram

Applications

Kitchen scales, pet feeders, coffee machines, etc.
