

BLDC Hair Dryer Workshop

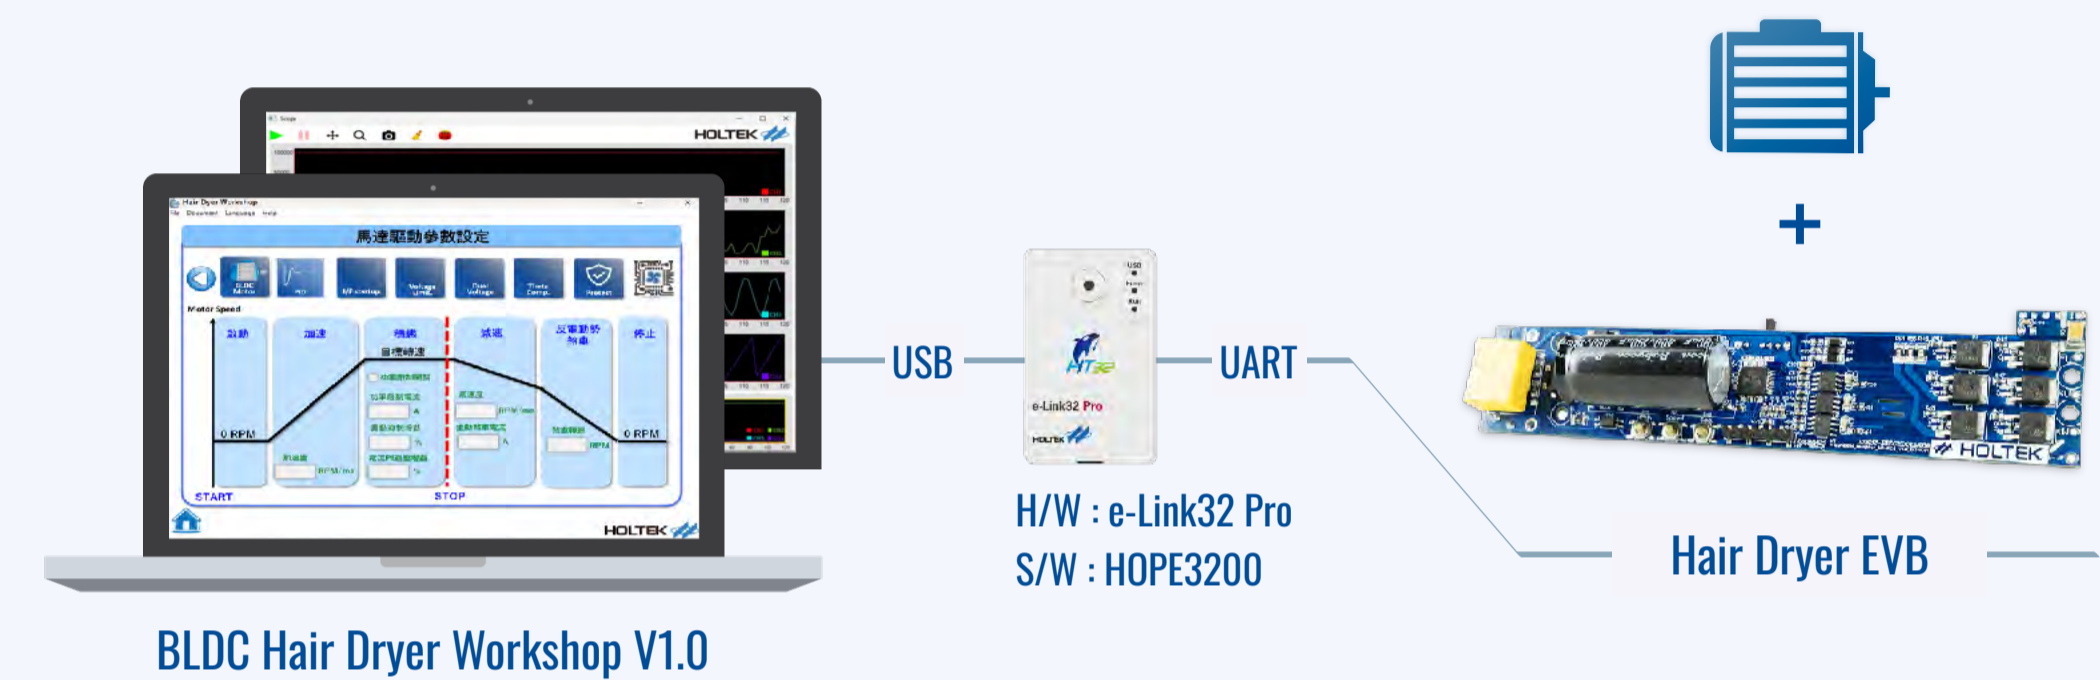

HT32F65230

Characteristics

- Supports AC single-/dual-voltage (AC 110V~220V) BLDC motors
- Friendly graphical interface, supporting secondary development
- Optimized and streamlined parameters
- 3-step speed control, temperature control and backward rotation cleaning
- Reliable start-up, vibration suppression, power limiting, active and passive brake
- Complete protection functions
- Real-time control and monitoring, reduced development period

Block Diagram

Applications

Single-/dual-voltage hair dryers, etc.
