

B11 150W Car Inverter

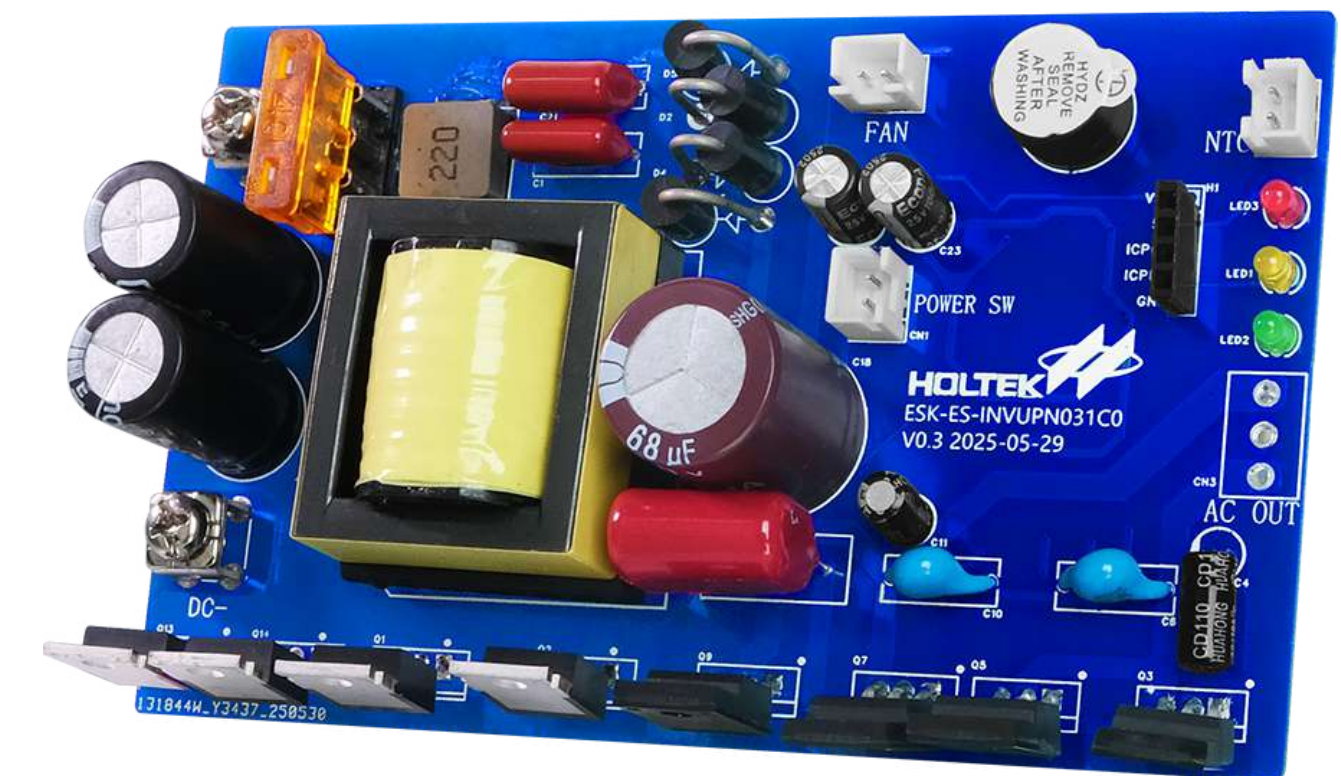

HT45R7130

Characteristics

- DC input: 10~15V
- Modified sine-wave output: 110/220VAC (50/60Hz)
- Single MCU non-isolated solution with cost-effective
- Output short circuit, over load protection, etc.
- No-load power <5W

Applications

Car inverters, portable power stations, etc.
