Digital Weighing Product
## BMH01105

Characteristics

- Module integrates C1 load cell sensor
- Measurement range: 0~5kg
- Accuracy: 0~100g±2g; 100~5000g±3g
- Selectable resolution: 1g/0.1g, flexibly meeting application requirements
- Supports upper/lower weight alarm threshold setting, real-time detection even in standby mode
- High integration design, sensor embedded PCBA
- UART serial port supports program upgrade and update

Applications

Kitchen scales, pet feeders, coffee machines, etc.
