

Wireless Doorbell

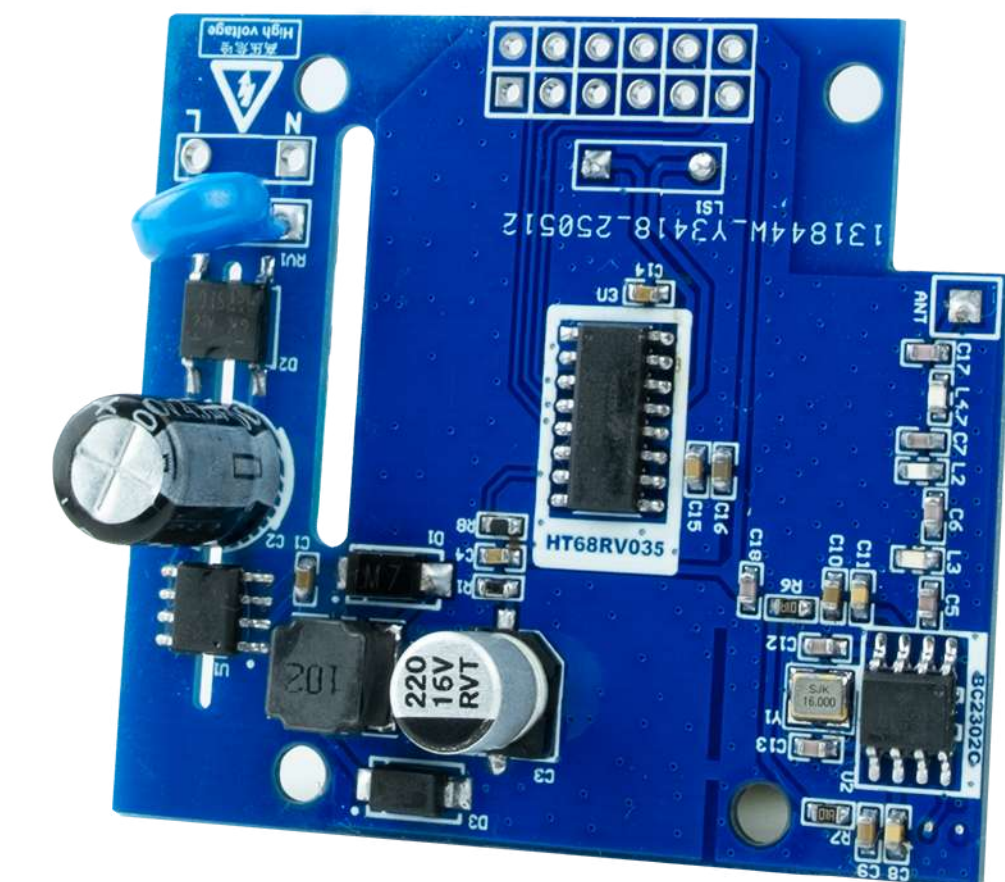

TX: BC2161/RX: BC2302C+HT68RV035

Characteristics

- Supports multi-band communication: Compatible with 315MHz/433MHz bands, providing application options
- Excellent RF characteristics
 - Transmission power up to 13dBm
 - Receiving sensitivity up to -108dBm @10Ksps/433MHz (BER <0.1%)
- Provides TX/RX development platform to automatically generate programming files, accelerating product development

Applications

Wireless doorbells, etc.
